

A Day in...
Technology in Qualitative Research (TQR)
Champaign, Illinois
Wednesday May 14, 2008
(8:30 am to 4:00 pm)

Join us for a special pre-conference day of the Fourth International Congress on Qualitative Inquiry dedicated to exploring issues at the intersection of qualitative research and technology. The conference will have something for everyone—those who are deeply familiar with technology and those who are just beginners. Come join us for:

Keynote Speaker: Mei-Po Kwan, Ohio State University

Feminist Geographer, Qualitative Researcher, and Radical Technology Theorist!

Reflective and Engaging Papers!

Paper sessions will engage participants in discussions about qualitative research and technology:

- *Theoretical frameworks;*
- *Ethical and social justice;*
- *Use of specific technologies;*
- *Impact of digitalization on qualitative research; and*
- *Preparation of future qualitative researchers in the use of these tools*

An Exciting Technology Showcase!

The Technology Showcase is designed to allow qualitative researchers to learn about software and other technologies with value to their research activities. Presenters can meet researchers interested in exploring new technological options.

The TQR pre-conference will be followed by a reception to which all are invited.

All participants must register for the full conference at www.qi2008.org

Pre-registration required – easy to do and at no additional cost!!

1. **Just Email: tqr@queri.org**
2. **Place “TQR registration” in the subject heading.**
3. **Make sure the body of your email includes your full name, surface address, telephone contact, and email address.**

You will receive an email confirmation (allow one week, please), and later you will receive the program schedule with more detailed information.

Check-in begins at 8:30 am on Wednesday, May 14th at the Illini Union, where the TQR activities will be held. (Same day *registration* will only be open on May 14th in the unlikely event that there is space available.)
